

## How to Participate in the Planning Process

The objective of this newsletter is to obtain your comment and input on the range of options being considered for the park's resource opportunity areas (Table 4), while taking into account those options that will be common to any developed alternative (Table 3).

In the space provided below, we would like for you to select those action options in Table 4 that best represent your opinion regarding the future management of Padre Island National Seashore. You may choose to use the Table 4 numbering scheme (A1, B3, B5, etc.) to reference each of your written opinions. Please feel free to provide any other action options that you would like to see considered. Also, please feel free to comment on the existing park conditions (Table 2) and options common to all developed alternatives (Table 3).

You can submit comments by three methods. Written comments must be received by March 15, 2005.

1. **You can fold and return this form with your comments.**
2. You can answer questions online at <http://planning.nps.gov/parkweb/comments.cfm?RecordID=143>
3. You can attend any of the three public meetings that will be held in San Antonio, Corpus Christi, and Raymondville March 8- 10. For exact dates, times, and locations, please check the What's New Section of our park planning website at: <http://planning.nps.gov/parkweb/what.cfm?RecordID=143>
